### PERFORMANCE OF THE COMPANY

Since the Indian economy continued to be in the recessionary trend, the infrastructure activities during the year under review have slowed down to a great extent and as a result thereof demand of related products including Steel Tubes & Pipes slashed drastically. In the given subdued conditions, the sales of the company during the year under report decreased by 55% in comparison to that of the previous financial year resulting reduction in profits by over 70%.

Management in such unfavourable circumstances do not expect any improvement in the demand as the market may further slow-down in view of lower growth in the economy during the current financial year in comparison to the financial year 2012-13.

### CORPORATE GOVERNANCE

A detailed Report on Corporate Governance is given in Annexure to this report. The Auditors' Certificate relating to compliance of the conditions of Corporate Governance, as stipulated in clause-49 of the Listing Agreement with the Delhi Stock Exchange where the shares of the Company are listed, is also enclosed.

#### **MANAGEMENT DISCUSSION & ANALYSIS**

Due to Indian economy having been continued to be in recessionary trend, slow down in the infrastructure activities and reduction in the demand of Steel Tubes & Pipes causing very low level of profits earned by the company during the year under review, the management is of the considered view that the company diversify its activities by exploring various other avenues including the alternative use of the company's land at Faridabad.
